Testerday Thornton showed up at the of-fice of Representative Howard with a let-ter of introduction from Attorney Hollins Randolph, of Atlanta, Ga., a member of the firm of Brown & Randolph. But Representative Howard was on his guard, for it was but a few days ago that the same man fleeced Joseph Atanoff, secretary of Senator Martine of New Jersey out of 356. Detective Howlett, of the Central Detective Office, was placed in charge of the trap. Thornton was in the act of presenting the letter to Represent-ative Howard when in walked Attorney Randolph. Aranoff also put in appear-ance and recognized in Thornton the man who had stung him for \$250.

## NEW PHASE OF QUESTION.

Senator Borah, a member of the Committee on Foreign Relations, has given a new phase to the resolution of Senator Chamberlain calling for the abrogation of the treaties with Great Britain respecting the Panama Canal. He con-tends that if Senator Chamberiain is correct in his premises then there is no need to abrogate the treaties or attempt

to abrogate them, and thereby offend a friendly power. The whole proposition of Senator Chamberlain, Mt. Borah said yesterday. is based on the fact that the Isthmian Canal is being constructed through property within the territorial jurisdiction of the United States, whereas the Clayton-Bulwer and Hay-Pauncefots treaties deal with the subject of a canal through foreign territory only.

I was charged there with forging a check for more than \$500, but I pleaded not guilty to the charge. My father was an officer in the Confederate army, and in hiding my identity I am anxious not to cast any reflection upon him. He is dead, but even the dead must be respected. A twenty-four-hour campaign, in which

That there is a direct relation be-tween the wearing grind and despairing drudgery of long working hours and drunkenness among men, and between low wages and immorality among women was the expressed belief of Rev. Dr. Johnson made a plea for greater ac-

Whether from suggestion caused by treatment with a supposed cure, or from the curative effects of the turtle serum

family.

Most of the patients have been careful in selecting their food since the treatment, and even with a restricted list of desirable foods have eaten heartily.

A male patient who has remained a home since the administration of the treatment, in order to give the serum additional chance to work, returned to his office yesterday, feeling stronger he says, than for months.

The patients in most cases have re quested that their names be suppressed. They say that they are subjected to comment, and often are deprived of the association of healthy friends and workers, because of the publicity given their cases. Two of the patients, one of whom was forced to give a fictitious address, because he said he would lose his position, have said that they would be liable to be discharged from their offices if it were thought that other workers were in danger from them.
